Annual report of the Bangalore Town Municipality for 1875-76.

ANNUAL REPORT

OF THE

Town Municipal Commission.

FOR THE

OFFICIAL YEAR 1875—76.

Regulation in Force.

The Municipal Regulations introduced in 1871 have continued in force throughout the year under report

Composition of the Board.

2 No changes have during the same period been effected in the composition of the Board.

The following are the sanctioned sources from which funds for Municipal purposes are raised.

I. An octroi on Tabacco, Betel leaf and Betel nuts.

II. A Mohatarfa Tax.

III. A Tax on Houses, Buildings and Lands imposed only on those classes who are exempted from the operation of tax No. 2.

IV. A Tax on sale of spirituous Liquors.

3 The subjoined table shews the actual amounts derived during the year under report from each of these modes of taxation and the incidence of each per head of population.

Municipal Receipts.

4 The actual receipts from all sources inclusive of a balance of Rs. 8717—7—10 carried over from the previous year amounted to Rs. 73,486—8—2. Appendix A I exhibits the gross receipts during the year contrasted with the Budget Estimates and shews that the actuals exceeded the Estimate by Rs. 3892—8—2, and which excess was due to the following causes.

I. An out-standing balance from the previous year under Heads II & III was made good during the year under review.

II. There has been a considerable increase in the anticipated income under head Rents consequent on the construction of additional Market stalls, as also on a stricter system of supervision over the Market collections.

III. To an increase of receipts under head Miscellaneous and.

IV. To a sum of Rs. 726—3—6 received in the course of the year fromthe Deputy Commissioner and which did not appear in the Budget.

Municipal Expenditure.

The total expenditure for the year a detailed and classified Statement of which is given in Form C, Appendix B. amounted to Rs. 64005—3—8 leaving a balance to be carried over to the next year's credit of Rs. 9481—0—0

ORIGINAL WORKS.

F. Drains.

7 The Budget allotment under this head was Rs. 9000 of which Rs 3851–13–10 was expended in the construction of 653½ running feet of V Section Drains and 6030½ running feet of Box Drains.

8 The subjoined table shews the amount of the work that was carried out in the several Divisions of the Town.

G. Wells.

9 The chief works untertaken during the year under this head were reconstructing a portion of the revetment of the Dhurmamboody Tank, and which had been damaged by the heavy rains of 1874. and in the construction of a new well in connection with the Pete Mutton Market.

H. Markets.

10 A sum of Rs. 2883 was provided for in the Budget for dismantling the old covered sheds standing in the centre of the Vegetable Market and reconstructing the same with Bengal terrace roofs, the project would only have given improved accommodation to the vendors of sugar-cane and to certain dealers in petty bazar articles, while the vegetable vendors who are in the habit of occupying the open space within the Market enclosure would have been in no way benfitted, it consequently occurred to me that a revision of the original plan would be desirable and sanction having been duly obtained 8 covered sheds similar to those lately constructed in the Cantonment Market and a full description of which was given in my report of that Municipality have now been erected at a cost not exceeding the original Estimate, these sheds have not only improved the appearance of the Market but have also added much to the convenience and comfort of the vendors who fully appreciate the shelter from sun and rain that has thus been afforded them.

J. Town Buildings.

11 In my annual report for 1873—74 I mentioned that the Municipality had constructed a Bandy stand for carts bringing in Firewood for sale in the Town this Bandy stand is now so largely resorted to that it was found necessary to increase the accommodation required by the Bandy men v. w. and with this view during the past year additional stone built sheds or 'Unkanams' have been added at a cost of Rs. 500.

12 A further sum of Rs. 1914—8—7 was expended on works included under the head now under reference from the Budget allotment "Extraordinary P. W." the chief works thus undertaken consisted in the reroofing a portion of the Pete Tobacco Kotee at a cost of Rs. 755 in rebuilding the Cook room and out houses attached to Purnaiya's Chuttram, in the erection of a Cholera Hospital and sheds attached on a site selected for the purpose to the eastward of the Fort and on other minor works not worthy of particular mention.

Miscellaneous.

13 The expenditure under this head amounted to Rs. 1100—2—8 against Rs. 439—11—6 in the previous year. The works undertaken and deserving of special notice consisted in the construction at a cost of Rs. 479—7—1 of an additional flight of steps to the Kumbargundy Reservoir a work rendered necessary from the great numbers that now resort to the reservoir for washing and bathing purposes. A further sum of Rs. 589—8—9 was expended in repairing several breached portions of the supply channel to the Dhurmamboody Tank; this work has been carefully and substantially carried out and as it is in contemplation to enlarge during the present year the waste weir of the Tank it is hoped that by this means the necessity for opening these breach-es may in future be dispensed with.

Compensation.

14 The works undertaken and calling for special remark under this head are the following:—The opening up of a lane to connect Curweena Pete into Lungerkana road, this most necessary and useful project has been delayed owing to the opposition offered by one individual to give up a small portion of his ground required for the pro-posed road, with this exception all the other parties concerned have accepted the compensation offered but as application has now been made to acquire possession of the portion of ground required under the provisions of section 98 of the Bangalore Municipal Regulations, it is hoped that the project may be carried into effect during the present year. A sum of Rs. 2000 had been provided in the Budget for the widening of Metkal lane but this project was also obliged to be deferred as no satis-factory arrangement could be made with the owners for the purchase of the ground and buildings required to be taken up.

Repairs.

15 The Budget allottment under this head was Rs. 5000 of which amount Rs. 4748—14—7 was expended chiefly in petty repairs to the numerous roads and lanes of the Town and in the payment of the salaries of the Road and Drain Kaliath Establishments. The subjoined statement shews the amount of work performed by these latter establishments during the year.

Police.

16 The expenditure incurred for the pay of the Police Force amounted Rs. 20,605—11—4 against Rs. 20,310—4—10 in the previous year.

17 The Pete Municipality is still charged with the whole cost of its Police Establishment, a charge which as I shall presently shew is yearly increasing and has now reached a scale that was not and could not have been anticipated at the time the arrangement was originally made, and as the outlay thus incurred is a serious burden on the resources of the Municipality it seems highly desirable that some measure of relief should now be afforded. I brought this subject prominently to notice in a letter No. 405 dated 11*th March* 1872. to the address of the Secretary to the Chief Commissioner P. W. D. and was informed in reply that the question of relieving the Municipality of a portion of the cost of the Police would be considered and dealt with before the Budget of 1873-74 was prepared. I regret to add that notwithstanding the assurance here given no measure of relief has yet been carried out.

18 The subjoined statement shews the actual charges incurred on account of the Police from the first introduction of the arrangement up to the present date.

Conservancy.

19 The total expenditure under this head amounted to Rs. 8970—11—6 in which however is included a sum of Rs. 640 being the cost of 8 New Conservancy carts while as a set off allowance must be made for a sum of Rs. 992—12—0 realized by the sale of Manure collected at the several refuse depôts. An increase to the number of the Conservancy establishment as well as increased rates of pay are now urgently necessary and will be duly considered when next year's Budget is being prepared.

Lighting.

20 The expenditure for lighting amounted to Rs. 2036—15—3 in which is included a sum of Rs. 178—8—0 the cost of 51 New lanterns notwithstanding that there has been a considerable increase to the number of Lamps of late years, there can be no doubt that the Town is still very insufficiently lighted and that a further and very considerable increase is required. I may add that want of Funds alone prevents this very desirable measure being carried out.

Vaccination.

21 Appendix R exhibits the operations of the Vaccine Department during the year and shew that 601 operations were performed of which number 572 are returned as having proved successful. Provision has been made in the present year's Budget for the employment of an additional Vaccinator (hitherto there has been only one) and it is hoped that the operation of the Department will be thus greatly extended.

Miscellaneous.

22 The expenditure shewn under this head amounted to Rs. 5730—10—0 the principal item being a sum of Rs 4000 paid to Government in liquidation of a loan contracted in the previous year for the improvement of the Pete Main Drain; the remaining charges were incurred in the Registration of Vital Statistics, Cattle Pound expenses, and other items of minor importance.

General Remarks.

23 The health of the Town has been generally good. The returns give the number of Deaths as 1254 against 1385 in the previous year and 1373 Births against 1654

the deaths are thus shewn to have been in the Ratio of 20.650 per mille of population, there seems reason however to doubt how far those returns can be relied on. Cholera made its appearance in the Town early in September and cases continued to occur during that and the succeeding 3 months, at no time however can the descase be said to have assumed an epedemic form as during the entire period it prevailed, there were only 24 cases in all with 15 deaths, a portion of the Lungerkana was converted into a Cholera Hospital and to this all such patients as could not be conveniently treated in their own houses were removed; due precautions were likewise taken for cleansing and disinfecting the houses of all affected with the desease.

24 My best thanks are due to Mr. Garoodacharry Amildar and to the Divisional Commissioners for their regular attendances at the Ordinary Monthly Meetings and for the assistance they have afforded me in disposing of the numerous petitions, building applications &c., submitted to me during the period under report.

25 Mr. Sawmy Doss Pillay Assessor of Municipal Taxes and Manager of my office has ably and efficiently conducted the duties of these Departments.

Office of the Town Munl. Comn.
